Emotions awakened by the beauty of sand art

The Sand Museum is the only art museum in the world that exclusively exhibit sand sculptures. Since our first exhibition of sand sculptures in 2006, world's top level artists have gathered yearly to create delicate yet grand sculptures with various themes, to the awe and delight of our 3.9 million visitors. This year, the theme of the 11th Exhibition is "Travel Around the World in Sand: The Nordic Countries". Nordic countries' majestic nature that attracts people from around the globe, and their magical and beautiful world will be recreated through sand sculptures. We hope you will enjoy the fleetingly delicate yet magnificent world of sand sculptures.

The Sand Museum, located at a corner of the magnificent Tottori Sand Dunes, is the world's first indoor museum exhibiting sand sculptures.
